**Sama Tazerbo Oil Co. (STOC)**  
Exploration & Production

## Introduction

Our company, **Sama Tazerbo Oil Exploration & Production Company** is the first private oil & gas exploration & production company in Libya registered under business registration No. 45169 dated 2013/02/10 .

Our goal is to discover oil in places that was not explored before.

We are a newly established oil company; we started our company by hiring qualified geologists, geo-physicists, engineers and experts who have excellent experience in the oil & gas exploration.

The vision of the Libyan Oil Ministry under the new government is to encourage exploration & production with the goal to increase the export of crude oil from 1.4 million barrels per day 1.7 million barrels per day by 2014, to 3 million barrels per day by the end of 2017.

With this encouragement from the Libyan Oil Ministry, we made some initial topographical, geological and geo-physical researches in Al Kufra basin, our research suggests the existence of hydrocarbon traps in some sub-basin of the great Al Kufra basin data on some specific areas that we think there is substantial amount of oil, but we lacked the technology and sophisticated equipments therefore, we are immediately seeking partnership with international companies highly experienced in the oil industry, we believe that such companies shall be essential for assisting us in our search for oil.

**Sama Tazerbo Oil Co. (STOC)**  
Exploration & Production

We are open to accept joint venture agreement with big foreign oil exploration & production companies as well as other oil related companies to help realize our objectives.

We are now in agreement with Zhongman Petroleum & Natural Gas Co. Ltd which has two (2) divisions:

1. Drilling Engineering and other services.
2. Drilling Rig manufacturing and drilling material supply.

#### **A. Zhongman Petroleum & Natural Gas Co. Ltd. (ZPEC) Capabilities**

1. Petroleum Equipment Manufacture
  - a. ZPEC can design and manufacture mechanical and electric powered onshore and offshore rigs with drilling depth from 3,000 to 9,000 meters.(equipped with power from 750 to 3,000 HP)
  - b. ZPEC can design, manufacture and integrate hydraulic and mechanical transmission truck mounted rig with depth from 1,500 to 4,000 meters (equipped with power from 450 to 1,000 HP)
  - c. ZPEC can design, manufacture and integrate jack up drilling platforms.
  - d. Petroleum Equipment Manufacture
2. Integrated Rig System
  - a. Skid-mounted rigs -750HP,1000HP,1500HP,2000HP, 3000HP.Drilling depth 5"DP-3000m,4000m,5000m, 7000m and 9000m respectively. With options for clients-AC motor driven rigs, DC motor driven rigs, chain driven rigs and belt driven rigs.

- b. Truck- mounted rigs- Mast type or erective section-  
Drilling depth-2000m, 3000m, 4000m Engine power-  
630HP, 2x540HP & 2x630HP respectively.
- c. Onshore workover rigs-Workover depth2 $\frac{7}{8}$ " DP-  
3050m,4580m,5800m,7000m,7920m & 8840m  
Drilling depth4 $\frac{1}{2}$ " DP- 1000m,1500m,2000m,3000 & 4000m
- d. Offshore oil drilling rigs-ZPEC Offshore Project Department  
(OPD) is recognized for its professional expertise in various  
analysis software packages such as  
MOSES,SACS,NAPA,GHS,CATIA,TRIBON,StruCAD,AQWA,  
SESAM,ANSYS and ABACUS  
Basic Design, Detail Design & Production Shop Drawing Design  
including Various Structural Analysis:
  - Hull & Outfitting, Structural Scantling,DMU & Weight  
Control
  - In-place Dynamic Structural Analysis
  - Global Strength, Fatigue and Buckling Analysis
  - Local Strength Analysis
  - Towing Stability and Motion Analysis
  - Piping & Machinery, HVAC Design
  - Electrical & Instrumentation Design
3. Rig Components-Drawworks, Hoisting Equipment, Mud Pump,  
VFD/SCR MCC, Solid Control System, Rig Instrument, Top Drive,  
Moving System
4. Drill Equipment & Tools-Rig Floor Handling Tools, BOPE,  
Downhole Tools, Milling Tools
5. Cementing Equipments & Tools

**Sama Tazerbo Oil Co. (STOC)**  
Exploration & Production

6. Camps
7. Spare Parts
8. Wellhead & Christmas Tree
9. Casing, Tubing. Line Pipe & Screen Pipe

Our main task is serving our valued customers and investors to their satisfaction through our efficient management and excellent workmanship.

### **VISION**

To rank among the best oil providers globally.

### **MISSION**

To produce an invaluable amount of oil for the consumers by merging the abundance of nature with today's modern techniques and technologies.

### **WORKFORCE**

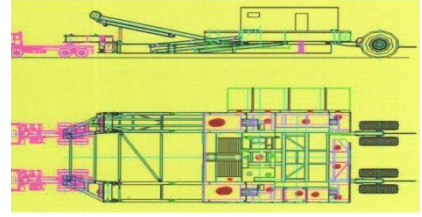

We are aiming to achieve the trust of our clients through our highly motivated and qualified employees.

We are inclined in complying with the regulation for occupational safety which aims at ensuring a safe and comfortable working environment for our employees.

## **GENERAL INFORMATION**

Company Name:	Sama Tazerbo Oil Company for Oil Exploration & Production
Address of Legal office:	Aarada St. Souk Aljouma, Tripoli
E-mail:	info@stoc.com.ly
Telephone:	+ 218 21 3513368
Telefax:	+ 218 21 3513369
Address of Headquarters:	Tazerbo, Libya
E-mail:	omar@stoc.com.ly
Telefax:	+ 218 64 5629339
Name of authorized representative resident in GSPLAJ:	Omar Ibrahim Irhaima
Type of organization:	Company of Limited Responsibility
Country of registration:	Libya
Registration Date:	February 10, 2013
Registration No:	45169
Chairman	Omar Ibrahim Irhaima
Home Address:	Al Emam Malek St. No. 20, Dahra Area, Tripoli
Mobile Number:	00218 912123185, 00218 928713247
Principal business in which engaged:	<ol style="list-style-type: none"><li>1. Undertaking of all services related to exploration, production and prospection of oil and gas.</li><li>2. Undertaking research, development, presenting studies, research, survey and surveys exploration, production and prospection of oil and gas.</li><li>3. Drilling and maintenance works, pipelines laying, hauling, scanning and prospection of drilling bits.</li><li>4. Inspection of works and equipment, welding works, construction of tanks and pumping and storing stations.</li><li>5. Fighting and treating environment pollution, environment pollution sources, radioactive material sources of plants and offshore and onshore oilfields.</li><li>6. Concluding contracts with experts, specialists, qualified and competent personnel, organizing technology training courses for oil workers necessary for the company.</li></ol>

1. Drilling & workover services.
2. Buying & selling of drilling & workover rigs.
2. Supply and erection of pressure vessels and storage tanks
3. Supply and erection of pipelines and steel constructions
4. Supply of pipe casing, tubings for drilling and workover
5. Supply of wellhead and christmas trees, valves and flanges
7. Reverse engineering
8. Water treatment

Number of stockholders, partners or other owners:

Four (4) shareholders

Number of regular employees, working partners in Libya:

Sixteen (11) employees

Number of regular employees working partners in worldwide:

One hundred fifty (150) employees

Approximate size of premises, all locations:

Legal Office in Tripoli: 400 SQM

Headquarters Office in Tazerbo: 120 SQM

Ajdabiya: 7,000 SQM w/ 17Mx50M Workshop Bldg.

Benghazi West Side: 6,000 SQM

Benghazi East Side: 1,500 SQM
